

IntelBuilder™

WEBSITE PLATFORM

IntelBuilder Website Platform is the first platform that offers web Content Management System (CMS), Search Engine Optimization (SEO), and Social Media Marketing. It is a powerful and well-packed platform that provides robust performance, helps generate traffic and retain strong customer base.

It is critical for a small business with an online presence to continuously update their content in order to maintain their Google ranking and stay ahead of the competition.

The Benefits

IntelBuilder allows a business to launch, operate, and market its website all in one step at an affordable cost. It gives all the control to the user, so a business does not have to rely heavily on a third party service. It is designed to offer a business a platform to manage a website, publish content, maintain a blog, and distribute information across numerous social media channels. Some of these include Facebook, Twitter, LinkedIn, Blogger, WordPress, LiveJournal, RSS feeds, and more.
