World Market Media

Ronald Russo Jr.
 Managing Director
<http://www.worldmarketmedia.com>

Over the last 10-years I have worked in the Internet space as a venture capitalist and have directly tried to create a web presence for 3 different companies of mine all with different developers. Each attempt proved to be the same experience, incompetent developers over promising and under delivering. I was very fortunate to finally meet the team at Vesta Digital and I am relieved that I will never again have to endure the frustration of not being able to achieve my on-line goals. My latest online project, which is extremely complex, has required significantly more time and research than the typical website. Vesta Digital has gone above and beyond what I expected to help me achieve an amazing website that is continually evolving. Working with them on a daily basis has been an absolute pleasure. Thank you, Vesta Digital!
