Vesta Digital – an internationally recognized web development and social media marketing company – will conduct a [webinar](#) next Thursday, March 18, 2010 from 1 PM to 2 PM EST.

The webcast will be hosted by Vesta Digital CEO Artem Gassan. Highlights of the one hour web seminar will include the many benefits of their IntelBuilder 2.1 [social media platform](#).

“I am very excited to be demonstrating our new IntelBuilder software to the public,” says Artem Gassan. “This product offers new features that make social media marketing easier, more effective and more affordable for everyone.”

IntelBuilder is [content management system](#) and social media platform for publishing content on the web as well as a web application framework. It is designed for easy control and maintenance and allows site administrators to effortlessly add content pages, edit existing content and remove outdated material from their websites.

[Vesta Digital](#) is a full service internet developer that is located in West Palm Beach, Florida. They have been providing dynamic communication tools and [services](#) for public relations firms, advertising agencies and small and large companies alike since 2004.

Vesta Digital has delivered millions of pages of social media conversations and digital media content for many corporations throughout the world including Colorado Goldfields, Inc., MagneGas Corporation, Bio-Clean International and Omni Advertising in Florida.

“This is going to be great webinar,” Artem Gassan continues. “When you see how well IntelBuilder performs right in front of your eyes – you will agree.”

The webinar is free and it's easy to [sign up](#).
